GENERAL INFORMATION

I. SPECIAL INSTRUCTIONS

1. Telephone conversations will be limited to Official Business. All military telephones and associated telephone equipment is installed and to be used for the transaction of official business of the U.S. Forces and other authorized government agencies.
2. When practicable, calls will be limited to five minutes duration.
3. Users are requested to refrain from wasting circuit time with incidental greetings and small talk.
4. Courtesy on the part of the calling party and on the part of the operator are equally essential.
5. Telephone calls will be made by number only.
6. Other means of communication should be used when available except where immediate personal contact is essential.
7. Users will not attempt to route long distance calls. The operator will be given the name of the terminal exchange and telephone number, whereupon the call will be routed over the most expeditious route available at that time.
8. If you must leave the vicinity of your telephone after booking a long distance call, either cancel it or arrange for someone else to take it.

II. TELEPHONE DIRECTORY SERVICE

1. The Directory Service endeavors to issue an accurate telephone directory. The cooperation of all concerned in notifying this section immediately of any changes, additions, or deletions will enable us to improve future editions.
2. New listings, changes or deletions will be made by writing (use form found on page 39) Communications-Electronics Division, Wire & Cable Section, ATTN: Directory Service, Headquarters Berlin Brigade, APO 09742.
3. Latest editions of the United States Berlin Telephone Directory are available at Communications-Electronics Division, Wire & Cable Section, Hqs Compound, Bldg No. 1, room 0048.
4. Telephone information is obtained by dialing 92.
5. THE TELEPHONE IS NOT A SECURE MEANS OF COMMUNICATIONS. Your telephone is subject to monitoring in enforcing security requirements and policing official use.

III. CLASSIFICATION OF SERVICES

1. Class "A" service is authorized for transaction of official business of the U.S. Army and other government agencies to all military and civilian telephone exchanges within the United States Army Europe.
2. Class "C" service allows access to local military circuits only. Class "C" telephones are restricted from access to civilian exchanges and all long distance service. Class "C" telephones can receive all incoming calls from military or civilian exchanges.
3. Class "C-1" (A-1 for TCA) service provides the same service as Class "C" and in addition allows access to local civil numbers without restriction (99).
4. Conference Military Telephones are specially designated, conference-type, common-battery or ringdown extensions of a military switchboard and are provided preferential service for the expeditious

III. CLASSIFICATION OF SVCS (CONT'D)

completion of official long distance telephone calls of a command or military operational nature. Access to civil telephones is not authorized (USAREUR Regulation 105-10).

CIVILIAN:

Class "B" telephones are installed by Deutsche Bundespost for personal use or non-military business and convenience of the subscribers who are responsible for all periodic service charges and local and long distance toll charges. Telephones in this group have access to all commercial telephone facilities. Application blanks are available at Telephone Payment Office, U.S. Army Shopping Center, McNair Barracks and Tempelhof Central Airport.

IV. TELEPHONE INSTALLATIONS, REMOVALS AND RELOCATIONS

1. All requests for official telephone service, new installations or changes to existing installations, will be submitted in quadruplicate on DA Form 11-154 dated 1 Dec 61 (all earlier editions are obsolete). These forms are available from AG Publications. Block spaces above the heavy line must be filled in on all forms regardless of desire for listing. (See sample DA Form 11-154 on page 8). All telephone numbers will be listed in telephone directories unless contrary instructions are indicated in block space "Special Requests", DA Form 11-154.
 - a) Requests by U.S. Mission will be routed through USBER, Chief, Communications Unit.
 - b) Requests by Battalions will be routed through and approved by Bn Commo Officer.
 - c) Requests by Air Force activities located at Tempelhof Central Airport will be submitted on AF Form 1070 in accordance with Base Regulation 100-1.
2. Requests for installation, removal or relocation of official telephones will be fully justified in "Special Requests" space and submitted to the C-E Division, Wire & Cable Section, Berlin Brigade, five working days prior to the desired commencement of work. All requests for large relocations should be coordinated and submitted, accompanied by floor plans, at least ten working days prior to the move.
- 3a. NO ADDITIONS, ALTERATIONS, OR REMOVAL OF COMMUNICATION EQUIPMENT IS AUTHORIZED BY OTHER THAN PERSONNEL OF C-E DIVISION, WIRE & CABLE SECTION, BERLIN BRIGADE.
 - b. Whoever willfully or maliciously injures or destroys any of the works, property, or material of any radio, telegraph, telephone, or cable, line station, or system, or other means of communications, operated or controlled by the United States, whether constructed or in process of construction, or willfully or maliciously interferes in any way with the working or use of any such line, or system, or willfully or maliciously obstructs, hinders, or delays the transmission of any communication over any such line, or system, shall be fined not more than \$1,000.00 or imprisoned not more than three (3) years, or both. Jun 25, 1948, C. 645,62 Stat 764.

V. DIALING INSTRUCTIONS

1. Two types of dial telephones are currently used in the U.S. Sector of Berlin.
 - a. Civil (Class B) telephones, identified by a six- or seven-digit number; i.e. 76-3210, 84-3210; 769-2000, 887-2000.
 - b. Military Automatic Exchange Service (PABX) identified by a three or four digit number; i.e. 7500, 6310, 5400, 3500, 432.
2. To call from an extension of the military dial exchange to a number in the Civil Exchange, dial 99 and then the listed number. (From Class "A" and Class "C-1" telephones only.)
3. To call from a civil telephone to a military extension, dial 819, and the listed number.
4. Dial Tone: On all military telephones in the Berlin area, dial tone is a steady tone. On civil telephones in the Berlin area, the dial tone is an intermittent short and long tone. A rapid series of short tones indicates a busy line and a regularly short hum indicates that the number dialed is ringing.
5. Mis-dial: A number dialed incorrectly will result in your receiving a series of alternately low and high pitched tones. When a mis-dial is indicated hang up the receiver and try to re-dial the desired number. If mis-dial is indicated a second time, check the directory for the correct number.

VI. INSTRUCTIONS FOR MAKING LONG DISTANCE AND OVERSEAS CALLS

1. **MILITARY:**
 - a. Class "A" and "AL" telephone users may make official long distance calls over military circuits by dialing prefixes listed on the back cover of this directory.
 - b. Class "A" and "AL" telephones may make official long distance calls over the civil system by contacting the military long distance booking operator.
 - c. Telephone control numbers must be provided to the military telephone operator by the subscriber when placing long distance domestic, international and CONUS calls.

Control numbers are obtained as follows:

- (1) **U.S. Army Berlin Brigade.** From the Adjutant General, Berlin Brigade, telephone 6007, between the hours of 0800 and 1700. After duty hours and holidays, call the Staff Duty Officer, telephone number 6531 for the control number.
- (2) **U.S. Mission Berlin.** From U.S. Mission Telephone Control Office, telephone 7507, between the hours of 0830 and 1730. After duty hours and holidays, call the Staff Duty Officer, telephone number 6531 for the control number.
- (3) **U.S. Air Force Berlin.** From 7350th Spt Gp, Admin Svcs Div, telephone 5308, between the hours of 0800-1700. After duty hours and holidays, call the Staff Duty Officer, telephone number 5300 for the control number.

After the control number has been obtained, call the military operator by dialing 90.

- d. Telephone calls to CONUS must have prior approval of the Chief of Staff, USCOB or Berlin Brigade.
- e. Calls should be completed in the minimum essential time, and as a matter of practice should be limited to not more than five minutes. Proposed conversations should be pre-planned, and reference material assembled in advance of placing the call. These actions will result in reduction of circuit time usage and thereby reduce high operating costs and delay to other subscribers desiring use of the limited number of circuits available.

2. CLASS "B"

Official calls will not be made from a Class "B" telephone except in emergencies, and then only through the military switchboard by dialing 819-93. Direct long distance dial service from Class "B" telephone to most cities in West Germany are available by dialing first the town prefix then the number of the wanted telephone.

Direct dial codes are furnished with the German Telephone Directory. If no direct dialing is possible you will get assistance from the operator by dialing 010. The charges for this call will be charged to your phone number.

Charges are registered by the local-call meter and are as follows:

On workdays:

from 7 a.m. to 6 p.m.
each 10, 12 or 15 seconds duration DM 0,16
(depending on distance)

from 6 p.m. to 7 a.m.
each 30 seconds duration DM 0,16

Saturdays
from 2 p.m. to Monday 7 a.m.
each 30 seconds duration DM 0,16

German holidays
from 7 a.m. to 7 a.m. next working day
each 30 seconds duration DM 0,16

(DM 0,16 price of one local call)
Since no call tickets are issued the charges for calls made over DDD will be contained in the number of local calls shown on the bill. For additional information call 010 or 76-1100.

Personal or unofficial long distance calls will not be accepted by the Military toll board except in an emergency (lost property, serious illness etc.) when Deutsche Bundespost or other commercial facilities are available.

3. Calls to the United States.

Station to station - if there is no answer at the called station, there will be no charge. If the called party refuses the subscribers call or subscriber cancels the call after it has been booked by the Intercontinental Exchange there will be a one minute charge.

Rates: Calls of 3 minute duration between
1200-2400 hrs DM 36,—
each additional minute over
3 minutes DM 12,—
3 minute duration between
0001-1200 hrs DM 27,—
each additional minute over
3 minutes DM 9,—

Person to person - if there is no answer at the called station there will be no charge. However, when you call person to person without getting the person you asked for, but operator informs you someone was present at the called station there will be a charge of 1 minute person to person.

Rates: Calls of 3 minute duration between
1200-2400 hrs DM 48,—
each additional minute over
3 minutes DM 12,—
3 minute duration between
0001-1200 hrs DM 36,—
each additional minute over
3 minutes DM 9,—

Rates for Calls to Alaska and Hawaii are the same for station to station and person to person.

Calls of 3 minute duration between
0001-2400 hrs DM 60,—
each additional minute over
3 minutes DM 20,—

Charges for oversea's call are based on the time the connection is made.

4. Charges for international telephone calls will be in accordance with current International Dollar Tariff schedules and will apply from the time the called number answers.

VI. LONG DISTANCE CALLS (Cont'd)

5. HOW TO IMPROVE YOUR LONG DISTANCE TELEPHONE SERVICE.

After booking a call, leave your telephone free to receive the call back. If you must leave, either cancel the call or arrange for someone else to take the call.

Plan your conversation and keep unnecessary talk to a minimum. (Limit call to 5 minutes if possible). Do not reprimand the operator or the emergency telephone maintenance man. Refer difficulties or undue delays to the Chief Operator, by dialing 93, at the time of the difficulty.

VII. CLASS "B" TELEPHONE SERVICE

1. Installations

Authorized personnel may make application for class "B" telephone at the Deutsche Bundespost, Telephone Payment Office, U.S. Army Shopping Center. Each class "B" installation must be covered by such application. For additional information call 76-1100. Persons authorized to live on Economy not in U.S. Army billets must request Class "B" telephone service through Wire & Cable Section, C-E Div, by stating applicant's name, rank, serial number and address, and statement that applicant is married and authorized to live off Post on DF 2496-1, available at Wire & Cable Section. DF should be signed by Commanding Officer, Adjutant, Division Chief or Chief Family Billeting Housing Branch.

2. Billing and Rates

a. The Deutsche Bundespost will charge all Class "B" telephone subscribers in Dollars. The statements issued will be in English and will show the amount in DM for each class of service rendered. The total amount of the bill rendered will be shown in Dollars, converted at the legal rate of exchange and will be rounded off to the nearest 1 cent unit. These telephone accounts are payable in U.S. currency.

ALL COMPLAINTS FOR CHARGES WILL BE SUBMITTED ACCOMPANIED BY RESPECTIVE BILLS AT THE FOLLOWING LOCATIONS:

TELEPHONE PAYMENT OFFICE

U.S. Army Shopping Center Telephone: 76-1100
McNair Barracks Telephone: 73-5055

Tempelhof Central Airport Telephone: 66-0201

b. Bills will be mailed through Deutsche Bundespost channels to each subscriber not later than the first day of each month and will cover charges for the period of one month and any previous charges not paid as of that date. Bills are payable up to and including the 10th of each month. The following are examples for certain basic charges:

1. Monthly flat rate charge DM 15.20 = \$ 3.80 (covering rental charge and 100 local calls).
2. Each local call in excess of the 100 contained in the flat rate charge DM 0.16.

Official calls in excess of the basic 100 call units may be deducted from subscribers telephone bills by listing the official overcalls on AEBA Form 034170 (19 JAN 67) and submitting the completed Form to DBP office when paying the monthly bill. These forms are available through normal military distribution channels.

c. A receipted telephone bill covering service to date of departure from this Headquarters will be a prerequisite for clearance when personnel permanently depart from this station. For more information call 6670.

d. Bills will be considered delinquent if not paid by close of business on the 10th day of the month, and - if reminder of the Deutsche Bundespost

fails to effect payment - service will be discontinued on the 25th of the month. If an account has not been paid on the day following the 30th of the month, subscriber's equipment will be disconnected and delinquent reported to the Commanding General, USA, Berlin Brigade. Personnel anticipating leave or other authorized absences extending over the payment due date are advised to contact the Deutsche Bundespost (Tp: 76-1100) so that necessary payment arrangements can be made.

Operating Hours of DBP Payment Offices:

Shopping Center Mo-Fri 0830-1500 hrs
Sat 0830-1200 hrs

McNair Bks Mo-Sat 1000-1700 hrs

TCA Mo-Fri 1200-1500 hrs

3. Clearance

Class B telephone subscribers, upon receipt of permanent change of station orders, will notify the Chief, Family Housing Billeting Branch, who will provide the necessary information for the transfer of the telephone contract. The old subscriber and new subscriber will then go to the Deutsche Bundespost Office (Shopping Center, McNair Bks or Tempelhof) to effect the transfer. In lieu of a receipted bill, contractual agreements between old and new subscribers, regards to unpaid telephone charges, will be a prerequisite for clearance of personnel departing on permanent change of station.

4. Telegrams and Radiograms

- a. To send a Telegram or Radiogram from a class "B" telephone call 113 and ask for "English speaking Operator". This is the number of the Deutsche Bundespost Telegraph Service, Main Office, Fernmeldeamt I, Winterfeldtstrasse 21.
- b. For the complete list of Branch Offices (See Telegrams and Radiograms, Miscellaneous Section of this Directory).
- c. Deutsche Bundespost will not accept collect telegrams.

VIII. TELEPHONE PRECEDENCE SYSTEM

- a. Telephone precedences are intended to expedite urgent calls during periods of heavy telephone traffic.
- b. There are two systems of telephone precedence that may be used for calls over the USAREUR military telephone network. A description of these two systems and their general use is in (1) through (2) below.
 - (1) Telephone precedences for calls within the United States European Command, recognized and used by NATO nations, are outlined in Table I, (page 6).
 - (a) Commanders of major commands, subordinate commands, and USAREUR assigned units and activities (USAREUR Reg 10-5) will designate those individuals by position within their commands who are authorized to assign a precedence of FLASH or LIGHTNING to a telephone call. A list, as limited as possible, of those who will receive this preferential service will be forwarded to the appropriate signal officer for control purposes.
 - (b) General Officers or Flag Officers are automatically entitled to a LIGHTNING or IMMEDIATE precedence without specifically designating this precedence.
 - (c) Officers-in-charge of a communications center or their deputies may use a telephone precedence to route a message by telephone. The telephone precedence will correspond to the message precedence as indicated.
 - (2) Telephone precedences for calls within the United States European Command, recognized and used by NATO nations, are outlined in Table I, (page 6).

VIII. TELEPHONE PRECEDENCE SYSTEM(Cont'd)

MESSAGE Precedence	JUTCPS TELEPHONE Precedence
FLASH	FLASH
IMMEDIATE	IMMEDIATE
PRIORITY	PRIORITY
ROUTINE	ROUTINE

NATO TELEPHONE Precedence

FLASH
LIGHTNING
URGENT
ORDINARY

- (d) Any military person may use the FLASH, LIGHTNING or IMMEDIATE precedences when circumstances warrant (e.g., to announce a state of alert, to report and air, land or sea catastrophe).
- (2) **JOINT UNIFORM TELEPHONE COMMUNICATION PRECEDENCE SYSTEM.** Telephone precedence to be used by all authorized users of the voice communications facilities of the Department of Defense and all other users, except NATO and Allied Forces, are outlined in Table II, (page 7).
- (a) The precedence indicators listed in the chart Table II are directed for joint use and specify, by Numerical Category of Precedence or its equal Military Precedence Designator, the relative order in which telephone calls should be handled based on the importance (content) of the call.
- (b) The precedence system is directed for use by all authorized users of the voice communication facilities of the Department of Defense. Since the effectiveness of the system depends upon cooperation on the part of persons authorized to employ it, users must be familiar with the purpose to be served by each precedence category and the types of calls which may be assigned the respective precedences. Each authorized user should consider whether a call requires special precedence and exercise care not to request or utilize one higher than the circumstances requires since this defeats the system.
- (c) The AUTOVON System does not make specific provisions for the conduct of test and exercise calls. Those activities or individuals authorized or required to conduct such tests and exercises will employ precedences consistent with the nature of the test or exercise, and upon contacting the called party will identify the call as a FLASH test call, IMMEDIATE test call, or PRIORITY test call.
- (d) Calls of a given precedence will not normally pre-empt calls of an equal precedence. However, calls originated by the President of the United States, Secretary of Defense, and Joint Chiefs of Staff can pre-empt FLASH calls in progress by application of their FLASH OVERRIDE capability. In addition, commanders of unified and specified commands when declaring either Defense Condition One or Defense Emergency and CINCNORAD when declaring either Defense Condition One or Air Defense Emergency may also pre-empt FLASH calls in progress by application of the FLASH OVERRIDE capability.

VIII. TELEPHONE PRECEDENCE SYSTEM (Cont'd)

- c. The following implementing instructions will apply:
- (1) Designation of Precedence. It is the responsibility of the originator of a telephone communication to establish the appropriate precedence. Administrative-type telephone communications may not be assigned priority-type precedence higher than URGENT for use within and between NATO and Allied Forces and not higher than Priority under the JOINT UNIFORM TELEPHONE COMMUNICATIONS PRECEDENCE SYSTEM.
 - (2) Changes in Precedence. Once a priority has been established by an originator, no right exists to change the precedence to avoid seizure of the circuit by a telephone operator for a higher precedence call with pre-emption right. Telephone operators will not question assignment of precedences by originators and they will not change precedence assignment.
 - (3) Automatic Precedence. All official telephone communications to which a precedence has not been assigned and which are placed through a military switchboard will be considered as ORDINARY within Europe, or ROUTINE under the JOINT UNIFORM TELEPHONE COMMUNICATIONS SYSTEM.
 - (4) Method of Initiating a Priority-Type Telephone Call. Originators of priority-type telephone communications will advise the telephone operator that they desire to make a priority call, of the precedence assigned, location desired, and number or name of the called party. Originator's grade, name, extension, and control number will be provided when necessary. When circuits are in use, the operator will place the call according to the assigned precedence and notify the originator when it has been readied for completion.
 - (5) Incoming Telephone High-Precedence Calls. These calls will be given the same preferential treatment accorded outgoing high-precedence calls. Every effort will be made by subscribers to accept, immediately upon notification, any incoming telephone call with a pre-emption right.

IX. MINIMIZE

- a. Meaning of MINIMIZE. Military communications systems are engineered to provide adequate handling of normal day-to-day message traffic volumes and a limited spare capacity for contingencies. When an emergency arises, the systems are not able to cope with the normal traffic volume plus the additional traffic load that the emergency creates. To insure prompt transmission of vital messages, action must be taken to confine the traffic load to the system capability. This is done by imposing MINIMIZE on the users of the system.
- b. MINIMIZE means: "It is now mandatory that normal message and/or telephone traffic, i.e., traffic other than that related to the emergency, must be reduced drastically in order that vital messages connected with the situation at hand shall not be delayed."
- c. MINIMIZE is directed by AR No. 105-34.

X. PROFANE OR OBSCENE LANGUAGE

Profane or obscene language over the telephone is prohibited. Subscribers are responsible for the enforcement of this rule. Failure to observe this will constitute cause for discontinuing service.

the United States European Command

Designation (French equivalent)	Application	Pre-emption right
"FLASH" ("Priorite Absolue")	Reserved for very important calls such as: (1) Announcement of an alert (2) Opening of hostilities or impending hostilities (3) Cases of extreme operational urgency when a message must be sent in order to prevent allied elements from engaging each other (4) Initial reports on sea and air catastrophes or when an ammunition depot explodes Corresponds to FLASH message precedence	YES — over all lower precedence calls. DOES NOT PRE-EMPT another FLASH call
"LIGHTNING" ("Eclair")	Reserved for important calls such as: (1) Calls having an immediate bearing on combat operations (2) Calls dealing with the conduct of salvage operations (3) Calls of a very important nature dealing with logistic support and having an immediate bearing on tactical operations Corresponds to Immediate message precedence	YES—over lower precedence calls DOES NOT PREEMPT another LIGHTNING call in process
"URGENT" ("Urgent")	Reserved for calls requiring immediate action. (e.g., border incidents, combat reports) This is the highest priority that can normally be used for administrative messages. Corresponds to priority message precedence	NONE—will take priority over ORDINARY calls
"ORDINARY" ("Ordinaire")	All calls other than above, placed over military circuits or through military exchanges. Corresponds to routine message precedence	NONE

TELEPHONE PRECEDENCE SYSTEMS

TABLE II

Joint Uniform Telephone Communications Precedence System Chart

Numerical Category of Precedence	Military Precedence Designator	Transmission Pre-Emption	Application
1	Flash	Has precedence over any other telephonic call of lower precedence. Pre-empts lower precedence calls. May be pre-empted by the application of the FLASH OVERRIDE capability available to: (1) President of the US, Secretary of Defense, and Joint Chiefs of Staff; (2) Commanders of unified and specified commands when declaring either Defense Condition One or Defense Emergency; (3) CINCNORAD when declaring either Defense Condition One or Air Defense Emergency.	Flash Precedence is reserved for alerts, warnings, or other emergency actions having immediate bearing on national, command or area security. (e.g. Presidential use; announcement of an alert; opening of hostilities; land, air, or sea catastrophes; intelligence reports on matters leading to enemy attack; potential or actual nuclear accident or incident; implementation of services unilateral emergency actions procedures)
2	Immediate	Has precedence over any other telephonic call of lower precedence. Pre-empts lower precedence call.	Immediate Precedence is reserved for vital communications; (1) having an immediate operational effect on tactical operations, (2) which directly concern safety or rescue operations, (3) which affect the intelligence community operational role. (e.g. initial vital reports of damage due to enemy action; land, sea, or air reports which must be completed from vehicles in motion such as operational mission aircraft; intelligence reports on vital actions in progress; natural disaster or widespread damage; emergency weather reports having an immediate bearing on mission in progress; emergency use for circuit restoration, use by tactical command posts for passing immediate operational traffic)
3	Priority	Has precedence over any other telephonic call of lower precedence. Pre-empts lower precedence call.	Priority Precedence is reserved for calls which require prompt completion for national defense and security, the successful conduct of war or to safeguard life or property, which do not require higher precedence. (e.g. Reports of priority land, sea, or air movement; administrative, intelligence, operational, or logistic activity calls requiring priority action; calls that would have a serious impact on military, administrative, intelligence, operational or logistic activities if handled as a ROUTINE call.) "Normally, PRIORITY will be the highest precedence which may be assigned to administrative matters for which speed of handling is of paramount importance."
4	Routine	Has no precedence over any other call and is handled sequentially as placed by the calling party. No pre-empt.	Routine Precedence is reserved for all other official communications.

HOME SAFETY

1. "Present Arms!" is O.K. in the Army
But in most other places it's not.
Present arms to a kid
And you've put in your bid
For a tot on a hospital cot.
2. A match flames up
So hot and bright.
Teach your Child
To treat it right.
3. What disinfects and kills insects
And cleans the home so neatly
To little boys 'n' girls is poison;
Keep out of reach completely!
4. Kitchen kettles, pots and pans
Are for your roasts and stew
So turn away the handles or
You'll cook your offspring too.
5. What are little kids charmed by?
What are little kids harmed by?
Broken glass and jagged tins,
Scissors, knives and even pins.
6. A baby bird, if he tumbles,
Has wings to break his fall.
But a kid that shinnies the rail
Has no flying skill at all.

**SAFETY
EVERYWHERE
... all the time!**

EMERGENCY OPERATIONS CENTER (EOC) TELEPHONE INSTRUCTIONS

1. General: There are two each telephone systems in the EOC and in the Alternate EOC. The first, a dial system, is backed up by a manual switchboard. Should the dial system fail, calling parties will get a switchboard operator instead of dial tone when they remove the telephone handset from the telephone. Parties calling into EOC during dial system failure may hear the ringing tone but will not be connected.

a To use the EOC dial system:

EOC to Military	—	dial desired number
EOC to Civil	—	dial 99, then desired number
Military to EOC	—	dial desired number
Civil to EOC	—	dial 819, then desired number

b To use the EOC switchboard:

EOC to Military	—	ask operator for number
EOC to Civil	—	ask operator for number
Military to EOC	—	dial 7171, ask operator for number
Civil to EOC	—	dial 819-7171, ask operator for number

c To use the Alternate EOC dial system:

Alternate EOC to US Military	—	dial 6-9-819, then desired number
Alternate EOC to Civil	—	dial 6-9, then desired number
Military to Alternate EOC	—	dial 0 and ask operator for desired YORK number
Alternate EOC to other listed switchboard	—	dial 341, ask operator for desired switch
Civil to Alternate EOC	—	dial 309-0 ask British operator for desired YORK number

d To use the Alternate EOC Manual switchboard:

Alternate EOC to Military	—	ask operator for number
Alternate EOC to Civil	—	ask operator for number
Military to Alternate EOC	—	dial 0, ask operator for desired number
Civil to Alternate EOC	—	dial 881-4895 or 304-4895, ask operator for desired number

e To call other switchboards from military dial office or EOC:

BBde switchboard	—	dial 0 ask operator for*
British switchboard	—	dial 0 ask operator for YORK
French switchboard	—	dial 0 ask operator for CHERBOURG

Antidotes to use

1	11
If victim is conscious, cause vom- iting by giving either: Tablespoon of powdered mus- tard in glass of warm water, or Tablespoon salt in water, or Inserting finger in throat. For vomiting, place victim face down with head lower than hips.	Give 6 tablespoons thick starch paste—made by mixing corn- starch or flour in water. Then give 6 tablespoons salt in quart of warm water. Drink until vomit liquid is no longer blue in color. Then give several glasses of milk, or egg whites in cooking oil or milk.
2	12
Give a mixture consisting of: 2 tablespoons of powdered charcoal or powdered burnt toast, 1 tablespoon milk of magnesia, 4 tablespoons very strong tea.	Give 4 tablespoons olive oil, or castor oil, or cooking oil. Then give glass of milk or beaten whites of 2 eggs in glass of water. Then 1 or 2 cups coffee or tea. AVOID causing vomiting.
3	13
Cause vomiting (#1). Give 2 tablespoons epsom salts in pint (2 glasses) of water. Finally give 2 or 3 cups of hot coffee or strong tea.	Give 2 tablespoons vinegar in pint (2 glasses) of water. Give white of 2 eggs or 6 tblsp. olive or cooking oil. Coffee. AVOID causing vomiting.
4	14
Only within first 5 minutes of strychnine poisoning proceed as follows: Cause vomiting (#1). Give same mixture as #2. Artificial respiration. After first 5 minutes, slightest disturbance may cause convul- sions. Get patient to a hospital.	Insert clothespin or wadded hand- kerchief in mouth to prevent biting or swallowing tongue. Quickly loosen all clothing, es- pecially around neck. Watch to prevent self-harm. If patient has high fever, sponge with lukewarm water or pref- erably rubbing alcohol.
5	15
Cause vomiting (#1). Give same mixture as #2. Give 2 tablespoons epsom salts in pint (2 glasses) of water. Then give several cups of hot coffee or very strong tea. Keep patient walking or moving.	Cause vomiting (#1). Give 1 tablespoon bicarbonate of soda (baking soda) in pint (2 glasses) of water. Vomit. Repeat until alcohol odor disappears. Then 1 teaspoon baking soda in glass of milk. Protect patient's eyes from light.
6	16
Cause vomiting (#1). Keep patient warm. Give steamed dry rice or dry toast. Replace body fluids with water or weak tea. NEVER give cathartics.	Mix either 3 tablespoons milk of magnesia or whites of 12 eggs in several glasses of water—or give several glasses of milk. AVOID causing vomiting. For acids on skin, flush with water for 15 minutes.
7	17
Give same mixture as #2. Give 2 tablespoons epsom salts in pint (2 glasses) of water. Force patient to remain awake.	Give 1 teaspoon of spirits of am- monia (not household ammonia) in glass of water. 2 cups hot coffee or very strong tea mixed with whites of 3 eggs.
8	18
Cause vomiting (#1). Give 1 tablespoon epsom salts in glass of warm water. Then give half cup mineral oil. NEVER vegetable or animal oil.	Get victim into fresh air. If unconscious, give artificial respiration. Summon police emergency for oxygen. Several cups hot coffee or very strong tea after patient revives.
9	19
Fresh air immediately. If unconscious, give artificial respiration. Summon police emergency for oxygen. If conscious, cause vomiting (#1). Then give 2 tablespoons epsom salts in glass of water. NEVER give alcohol.	Give half cup of olive oil or cook- ing oil. Several cups coffee or strong tea. AVOID causing vomiting.
10	20
Cause vomiting (#1). Give same mixture as #2. Give 2 cups strong tea or coffee.	Cause vomiting (#1). Give 2 tablespoons milk of mag- nesia or 4 egg whites in milk. Then 2 or 3 glasses of plain milk.
	21
	Cause vomiting (#1). Give same mixture as #2. Get patient to a hospital.
