History of the United States Headquarters, Berlin

Pictured on the cover is the General Lucius D. Clay Headquarters, Berlin. Situated on Clayallee (formerly Kronprinzenallee), was built for the German Air Force in the years 1936-38. Originally it was one of seven Luftwaffe district, headquarters, Luftgaukommando III, reporting directly to the Air Minister (Goering). In 1943, the seven air districts on German soil were consolidated into one, Luftgaukommando-Mitte, headquartered on the same site. The new command was responsible for the air defense of the German homeland, including control of air-defense artillery. The last known commander of the „Middle District“ was Luftwaffe Lieutenant General Weise. Contrary to persistent belief, there is no evidence that the compound was ever headquarters of the Marshal Goering although he was probably a frequent visitor before the war.

The U.S. Army took control of the compound on 7 July 1945, when Army Engineers surveyed it for damage (less than 10 percent). Subsequently the property was confiscated under Allied Law No. 52 pertaining to properties of "the former German Reich." By the end of 1945 the U.S. Military Government for Germany, and for the Berlin District had established headquarters on the site. Both the Military Governor, General Lucius D. Clay, and the U.S. Commandant for Berlin, Brigadier General Frank Howley, had their offices on the compound during the Berlin Blockade and Airlift (1948-49).

The Military Government ended in 1949 with the establishment of the Allied High Commission for Germany in Bonn. Since 1949 the compound has headquartered the three elements of the United States Command, Berlin; the Office of the U.S. Commander, Berlin; the U.S. Mission, Berlin; and the Berlin Brigade. It was renamed General Lucius D. Clay Headquarters on 12 May 1979 in honor of the late General Clay.

INDEX & DUTY OFFICERS

INSTRUCTIONS FOR USING RED LINE TELEPHONES

1. These telephones are specially designated extensions of a military switchboard.
 - a. They provide preferential individual line service for expeditiously completing official telephone calls of a command or military operational nature within the framework of the USAREUR administrative telephone network.
 - b. This service was not designated nor is it to be used for conducting business of a routine or administrative nature. The placing of such calls over this system defeats the purpose of the service by delaying the immediate completion of highly essential calls.
2. Placing a Red Line telephone call
 To speed your service when placing a call, announce to the operator the name of the distant exchange, identify by the Red Line telephone number. Example: "Connect me with Heidelberg Red Line 10."

INSTRUCTIONS FOR CALLING INTO THE US COMMAND CAR TELEPHONE SYSTEM

1. General Information: Designated vehicles (see directory) within the U.S. Command are equipped with a Dial Car Telephone System which basically has the same capability as a Class A-2 military telephone. The system is equipped with only two channels which permits only two calls to be made at any given time. A busy signal is heard only if the two channels are busy, but not if a single car instrument is being used, or if the instrument in a designated car is turned off.
2. Procedures for dialing to a designated vehicle are:
 - a. From a USAB Military Telephone: Dial 12, wait for dial tone, then dial the TEL No of the desired vehicle. (USAB military telephones are those four digit numbers that begin with the numbers 3, 4, 6 or 7.)
 - b. From a TCA Military Telephone: Dial 9-12, wait for a dial tone, then dial the TEL No of the desired vehicle. (TCA military telephones are those four digit numbers that begin with the number 5.)
 - c. From a Berlin Civilian Telephone: Dial 819-93 and ask the operator to connect you to the desired vehicle.
3. NOTE: This system is transmitted by VHF radio. Once you dial 12 to call one of the vehicles that are listed and receive a dial tone, you are **on the air**. Every word you speak or is said by someone in the room close to you is being broadcast "in the clear" **even while you are dialing**. Once you are connected both sides of the conversation is being broadcast and is being monitored.

TELEPHONE SECURITY POLICY

1. The following information **will not** be discussed over the telephone:
 - a. Defense and FOUO information (including simulated defense information):
 - b. Classified information.
 - c. Project, operation or exercise nicknames associated in any way with a classified subject.
 - d. Double talk to circumvent the above.
 - e. Military information unclassified in peacetime but classified in time of war to include:
 - (1) Administrative troop movements.
 - (2) Personnel strength data of individual units.
 - (3) Unit reorganization.
 - (4) Changes in command relations.
 - (5) Logistics affecting military preparedness and/or combat capabilities.
 - (6) Serious deficiencies in training or equipment that affect operational readiness.
 - (7) Reequipment plans that affect operational capabilities.
 - (8) Sensitive units or items.
 - (9) Detailed itineraries of VIPs and their purpose.
 - (10) Identification of or changes in operational plans.
 - (11) Detailed circumstances of a defection.
 - (12) Information of which the classification is unknown.
2. Insure that the telephone receiver is seated firmly in the cradle of the phone upon completion of calls.
3. Do not operate radio/telephones in close proximity to conventional telephones.

SUNDGAUER HOUSING AREA

GENERAL INFORMATION

I. SPECIAL INSTRUCTIONS

1. Telephone conversations will be limited to Official Business. All military telephones and associated telephone equipment is installed and to be used for the transaction of official business of the U.S. Forces and other authorized government agencies.
2. When practicable, calls will be limited to five minutes duration.
3. Users are requested to refrain from wasting circuit time with incidental greetings and small talk.
4. Courtesy on the part of the calling party and on the part of the operator are equally essential.
5. Telephone calls will be made by number only.
6. Other means of communication should be used when available except where immediate personal contact is essential.
7. Users will not attempt to route long distance calls. The operator will be given the name of the terminal exchange and telephone number, whereupon the call will be routed over the most expeditious route available at that time.
8. If you must leave the vicinity of your telephone after booking a long distance call, either cancel it or arrange for someone else to take it.

II. TELEPHONE DIRECTORY SERVICE

1. The Directory Service endeavors to issue an accurate telephone directory. The cooperation of all concerned in notifying this section immediately of any changes, additions, or deletions will enable us to improve future editions.
2. New listings, changes or deletions will be made by writing (use form found on page 81) C-E Division, Telephone Branch, ATTN: Directory Service, APO 09742.
3. Personnel desiring a listing in the German Bundespost telephone directory, published yearly in May, must submit in writing, not later than October of current year, the desired listing. German Bundespost telephone directories may be obtained at the Payment Office, Shopping Center, Clayallee.
4. Latest editions of the United States Berlin Telephone Directory are available at General Lucius D. Clay Headquarters, Bldg No. 1, room 0048.
5. Telephone information is obtained by dialing 92.
6. THE TELEPHONE IS NOT A SECURE MEANS OF COMMUNICATIONS. Your telephone is subject to monitoring in enforcing security requirements and policing official use.

III. CLASSIFICATION OF SERVICES

as contained in USCOB/USAB Reg. 105-1.
dated 12 July 1978.

IV. TELEPHONE INSTALLATIONS, REMOVALS AND RELOCATIONS

1. All requests for official telephone service, new installations or changes to existing installations, will be submitted in quadruplicate on AE Form 1317 dated 1 Sep 78 (all earlier editions are obsolete). These forms are available from AG Publications. Block spaces above the heavy line must be filled in on all forms regardless of desire for listing. (See sample AE Form 1317 on page 80. All telephone numbers will be listed in telephone directories

IV. TELEPHONE INSTALLATIONS (Cont'd)

- unless contrary instructions are indicated in block space "Special Requests", AE Form 1317.
- a) Requests by U.S. Mission will be routed through USBER, Chief, Communications Unit.
 - b) Request by Battalions and Staff Divisions will be routed through and approved by Bn Commo Officer or Telephone Control Officer.
 - c) Requests by Air Force activities located at Tempelhof Central Airport will be submitted on AF Form 1070 in accordance with Base Regulation 100-1.
2. Requests for installation, removal or relocation of official telephones will be fully justified in "Special Requests" space and submitted to the C-E Division, Telephone Branch, ten working days prior to the desired commencement of work. All requests for large relocations should be coordinated and submitted, accompanied by floor plans, at least 15 working days prior to the move.
 - 3a. NO ADDITIONS, ALTERATIONS, OR REMOVAL OF COMMUNICATION EQUIPMENT IS AUTHORIZED BY OTHER THAN PERSONNEL OF C-E DIVISION, TELEPHONE BRANCH.
 - b. Whoever willfully or maliciously injures or destroys any of the works, property, or material of any radio, telegraph, telephone, or cable, line station, or system, or other means of communications, operated or controlled by the United States, or used or intended to be used for military or civil defense functions, whether constructed or in process of construction, or willfully or maliciously interferes in any way with the working or use of any such line, or system, or willfully or maliciously obstructs, hinders, or delays the transmission of any communication over any such line, or system, shall be fined not more than \$10,000.00 or imprisoned not more than ten (10) years, or both. Title 18, US Code, Section 1362.
 - c. All official Telephone Systems are subject to Communications Management Monitoring (AR 105-8).

V. DIALING INSTRUCTIONS

1. Two types of dial telephones are currently used in the U.S. Sector of Berlin.
 - a. Civil DBP (Commercial Telephone Service) telephones, identified by a six- or seven-digit number, i.e., 813-0000, 811-0000, 833-0000, 24-0000.
 - b. Military Automatic Exchange Service (PABX) identified by a four digit number, i.e., 7500, 6310, 5400, 4100, 3500.
2. To call from an extension of the military dial exchange to a number in the DBP civil exchange, dial 99 and then the listed number. (From Class "A" and Class "C-1" telephones only.)
3. To call from a DBP civil telephone to a military extension, dial 819, and the listed number.
4. Dial Tone: On all military telephones in the Berlin area, dial tone is a steady tone. On DBP civil telephones in the Berlin area, the dial tone is also a steady tone. A rapid series of short tones indicates a busy line and a regularly short hum indicates that the number dialed is ringing.
5. Mis-dial: A number dialed incorrectly will result in receiving a series of alternately low and high pitched tones. When a mis-dial is indicated hang up the receiver and try to re-dial the desired number. If mis-dial is indicated a second time, check the directory for the correct number.

VI. INSTRUCTIONS FOR MAKING OFFICIAL LONG DISTANCE AND OVERSEAS CALLS

1. MILITARY:

- a. When duties require an official international call, the caller will obtain a control number from his telephone control officer (TCO) IAW USCOB/USAB Reg. 105-1. This control number is sufficient authorization for the military long distance operator to accept and complete the call. International calls will be booked only through a military operator to insure maximum use of military facilities. Control numbers are not required to place calls to areas with local call access from the European military DDD system or for calls over the European AUTOVON system.
- b. Class A-1 telephone subscribers may make official long distance calls in Europe over military facilities by dialing the DDD or AUTOVON area prefix and local number. Class A-2 telephone subscribers may dial through the DDD system only. Prefixes for the European DDD system and some of the AUTOVON system are printed on pages 83 to 86 and on the back cover of this directory.
- c. Class A telephone users may place official long distance calls to a European civilian number by contacting the military long distance operator, number 90, after obtaining a control number from their TCO.
- d. Telephone operators will not dial numbers for subscribers who have access to the DDD or AUTOVON systems unless extenuating circumstances exist. Telephone operators will not dial local civilian numbers for subscribers who dial 90 (long distance).
- e. Telephone Calls to CONUS: Official calls to CONUS must have prior approval and a control number issued by a TCO prior to being booked. Calls to CONUS will be booked only through a military operator to insure maximum use of military facilities.
- f. Control numbers are obtained as follows:
 - (1) **Army.** From the TCO of the service members respective unit/staff division.
 - (2) **USBER.** From the TCO during duty hours at 7507. After duty hours contact the USBER Staff Duty Officer through the EOC at 7221.
 - (3) **Air Force.** From 7350th Air Base Gp, Admin Svcs Div, telephone 5308, between the hours of 0730-1630. After duty hours and holidays, call the Staff Duty Officer, telephone number 5300.

After the control number has been obtained, call the military operator by dialing 90.

- g. Commanders or division chiefs are responsible for the review and approval of requests for CONUS telephone calls within their respective unit (USCOB/USAB Reg. 105-1).
 - (1) Official calls to CONUS with control number can be booked from a commercial telephone after duty hours by dialing 819-93.
- h. Calls should be completed in the minimum essential time, and as a matter of practice should be limited to not more than five minutes. Proposed conversations should be pre-planned, and reference material assembled in advance of placing the call. These actions will result in reduction of circuit time usage and thereby reduce high operating costs and

VI. OFFICIAL LONG DISTANCE CALLS (Cont'd)

delay to other subscribers desiring use of the limited number of circuits available.

2. INDIVIDUAL COMMERCIAL TELEPHONE SERVICE

- a. Official long distance calls will not be made from a commercial telephone except in emergencies, and then only through the military switchboard by dialing 819-93.
- b. DA and USAREUR regulations prohibit the use of DoD communications facilities for other than conducting official U.S. Government business. The telephone switchboard will not accept requests for unofficial or private collect CONUS or international telephone calls. Emergency situations will be processed on a case by case basis.

3. HOW TO IMPROVE YOUR LONG DISTANCE TELEPHONE SERVICE.

After booking a call, leave your telephone free to receive the call back. If you must leave, either cancel the call or arrange for someone else to take the call.

Plan your conversation and keep unnecessary talk to a minimum. Limit call to five minutes if possible. Do not reprimand the operator or the emergency telephone maintenance man. Refer difficulties or undue delays to the Chief Operator, by dialing 93, at the time of the difficulty.

VII. INDIVIDUAL COMMERCIAL TELEPHONE SERVICE

A commercial telephone in quarters is installed as a result of a private transaction between the civil telephone agency and an individual of the US Forces, Berlin. The civil telephone agency in Berlin is the DBP who maintain and supply the service.

1. Installations

- a. The DBP operates the civilian telephone system in West Berlin. The DBP is an agency of the West German Government and is not under the control or supervision of the U.S. Army. Application for civil telephone service is made by the subscriber directly to the DBP offices at the Shopping Center or McNair Barracks after being assigned government quarters by the Family Housing Billeting Branch, for U.S. Army personnel or from Base Housing for U.S. Air Force activities. The Deutsche Bundespost will not accept any order for an installation, move or disconnection of a telephone in quarters over the telephone. Persons authorized to live in Economy Quarters must:

Army

- b. Request individual commercial telephone service through C-E Division, Telephone Branch, on a DF 2496-1, stating applicant's name, rank, social security number, address and a statement that applicant is authorized to live off-post (economy quarters), before application is made to the DBP. Form DF 2496-1 may be obtained from Telephone Branch or AG Blank Forms Section.

Air Force

- c. Request individual commercial telephone service through the 1946th Communications Squadron, Base Comm Office on a Base Housing form

VII. INDIVIDUAL COMMERCIAL TELEPHONE SERVICE (Cont'd)

letter, stating applicant's name, rank, social security number, address and a statement that applicant is married and authorized to live off base (economy quarters), before application is made to the DBP.

U.S. Air Force personnel will receive form letter through Base Housing.

- d. Others: Individual authorized communications support IAW USCOB/USAB Supplement 1 to USAREUR Reg. 600-700.

2. Billing, Rates and Complaints

- a. Technical problems should be reported to the DBP at 117.

- b. Subscribers are responsible for all service charges excluding initial installation or transfer charges. The initial installation may involve just one telephone or may include optional items such as a telephone extension, telephone with plug and jacks, loud bell or extended cord length. After initial installation, all relocations, special telephone configurations, extensions, additional wall plugs, bells or other such options are the responsibility of the user who must reimburse the DBP for these services. Initial installation is considered the first installation at any given address/quarters. A second installation at the same address/quarters by the same occupant will be at the expense of the occupant, i.e., reinstallation after service has been terminated by request of the subscriber will be at the expense of the subscribers. The change of quarters for the convenience of the occupant is considered a second installation, the expense is that of the subscriber.

- (1) Requests for number or name changes will be at the expense of subscriber.

- (2) If telephone service has been terminated due to non-payment of a delinquent telephone bill (around the 23rd of the month), all charges to include the blocking procedures and reconnection will be at the expense of the subscriber.

- c. DBP telephone bills are payable only in Deutsche Mark in cash or by check at any German post office, including the FRG, at the Truman Plaza or McNair Barracks DBP payment office, by presenting the mailed telephone bill. Payment may also be made by a transfer from an individual's postal or bank account to:
Buchungsstelle fuer F-Gebuehren
Postscheckamt Berlin West
Konto Nummer 818 00 - 108

- d. According to German Law all bills must be paid by the due date shown on the telephone bill (see page 79) even if the subscriber believes he has been overcharged. Complaints concerning commercial service should be reported in writing to the DBP offices at the Shopping Center or McNair Bks. If difficulties cannot be resolved by telephone they will investigate the complaint and if found justified, the amount of refund will be deducted from the next monthly bill.

- e. Bills will be considered delinquent if not paid by the date indicated on the bill. Failure of the subscriber to satisfy his obligations with the DBP, will result in his actions being reported to the appropriate Commander or Division Chief for remedial action and having telephone service

VII. INDIVIDUAL COMMERCIAL TELEPHONE SERVICE (Cont'd)

discontinued. Personnel anticipating leave or other authorized absences extending over the payment due date are advised to contact the DBP (Tp: 813-7190), so that necessary arrangements may be made.

- f. Charges for international and intercontinental telephone calls are based on the distance called, length of conversation and time of day called. However, in Berlin one call unit is DM 0.23 regardless of the time and length of conversation. Call units are computed by electronic equipment with built-in controls and safeguards to prevent charging an account erroneously. This system appears to have adequate control to protect the subscriber. However, being a mechanical device, there is a possibility of a malfunction. Any errors should be immediately reported to the DBP (see para. VII, 2f).

The following rates are applicable:

- (1) Monthly equipment rental rate of DM 27.00.
- (2) Each call unit will be DM 0.23.
- (3) No installation or transfer charges.
- (4) In accordance with USCOB/USAB Reg. 105-2, local official calls may be deducted from subscribers telephone bill. Authorizing officials (commanders, division chiefs in the rank of LTC or above or their authorized representatives) will forward two copies of AEBA Form 034170, Jun 77, to C-E Division, Telephone Branch, prior to the 10th working day of each month. Forms are available through normal military distribution channels. Deduction of official call units will then be credited to the following months bill.
- (5) A one-month rental charge is always paid in advance.
- (6) Call units are compiled from the 25th of one month until the 25th of next month. Bills are mailed out the following month.

g. ALL COMPLAINTS FOR CHARGES WILL BE SUBMITTED ACCOMPANIED BY RESPECTIVE BILLS TO THE FOLLOWING LOCATIONS:

by mail: Fernmeldeamt 2, US Rechnungsstelle
Ernst-Reuter-Platz 6
1000 Berlin 10

handcarried:

Telephone Payment Offices
U.S. Army Shopping Center

Telephone: 813-7190

Operating Hours: Mon-Fri 0900-1600 hrs

McNair Barracks

Telephone: 833-6295

Operating Hours: Mon-Fri 0900-1600 hrs

to be forwarded to the FA 2 for action.

3. INTERNATIONAL AND INTERCONTINENTAL (OVERSEAS) SERVICE

- a. Direct distance dial (DDD) service is available from a commercial telephone to cities in the Federal Republic of Germany (FRG) and cities throughout the world. Dial first the prefix, then the number of the desired telephone. DDD codes and call unit costs are provided in the Official Listing of Dial Prefixes (Amtliches Verzeichnis der Ortsnetzkennzahlen). If a DDD listing is not available assistance can be had from the DBP operator by dialing 0010. Charges are registered by local call meter and are as follows from Berlin to the FRG:

VII. INDIVIDUAL COMMERCIAL TELEPHONE SERVICE (Cont'd)

Daily Tariff:

Mon to Fri
from 6 a.m. to 6 p.m.
each 15 seconds duration DM 0,23
Sat
from 6 a.m. to 2 p.m.
each 15 seconds duration DM 0,23

Night Tariff I:

Mon to Fri
from 6 p.m. to 10 p.m.
each 30 seconds duration DM 0,23

Night Tariff II:

Mon to Fri 10 p.m. to 6 a.m.
Sat 2 p.m. to 12 p.m.
Sun all day until 6 a.m. Mon
legal Federal German Holidays
each 67.5 seconds duration DM 0,23

Since no toll tickets are issued the charges for calls made over DDD will be contained in the number of local calls shown on the bill. For additional information call 218-2395.

- b. Intercontinental Direct Distance Dialing (DDD) service is available between Berlin and the United States (CONUS only, not Alaska or Hawaii). To call the CONUS from Berlin:

- (1) Dial 001.
- (2) Dial the appropriate area code.
- (3) Dial the desired number.

It should be noted that for intercontinental DDD connections, a certain period of time, which may take up to one minute, will elapse before the called party will receive the first ring. The call meter, however, will start counting the calling time after the called party has answered. No toll tickets will be issued for calls made via the DDD system. The call charge will appear on the telephone bill of the subscriber only as the accumulated number of call units. When calling to the CONUS the duration of talking time for one each call unit is:

from 0000 to 1200 hours local ... 2.28 seconds
per call unit = 6.21 DM per minute
from 1200 to 2400 hours local ... 1.882 seconds
per call unit = 7.33 DM per minute

The cheapest time to call CONUS dialing direct from Berlin is between 0000 to 1200 hours local time. The cheapest method to call CONUS is to call collect as the cheaper U.S. rates apply.

- c. Collect calls may be booked through the International Operator by dialing 0010.

- d. Operated assisted calls to CONUS, Alaska and Hawaii may be booked by dialing 0010.

- (1) CONUS Station to Station Rates:
Three minute duration from 1200 to 2400 hours local DM 30.00
Each additional minute over three minutes DM 10.00
Three minute duration from 0001 to 1200 hours local DM 30.00
Each additional minute over three minutes DM 10.00

VII. INDIVIDUAL COMMERCIAL TELEPHONE SERVICE (Cont'd)

- (2) CONUS Person-to-Person Rates:
An extra fee is charged in addition to charges listed in paragraph d(1) above:
from 1200 to 2400 hours local DM 10.00
from 0001 to 1200 hours local DM 10.00

- (3) Alaska and Hawaii Station-to-Station Rates:
Three minutes duration

	Alaska	Hawaii
0001 to 2400 hours ...	DM 40,50	DM 30,00
Each additional minute over three minutes ...	DM 13,50	DM 10,00

- (4) Alaska and Hawaii Person-to-Person Rates:
Alaska Hawaii

an extra fee of DM 13,50 DM 10,00
is charged in addition to above amounts.

Three minute duration is the **minimum** allowable for booked (not DDD) calls.

- e. Deutsche Bundespost information is 118.

4. Clearance

Commercial telephone subscribers, upon receipt of Permanent Change of Station Orders, must notify the DBP seven (7) days prior to desired telephone discontinuance date to allow the DBP sufficient time for final bill preparation. Paid final telephone bills and clearance papers must be presented to C-E Division, Telephone Branch, HQ Bldg 1, room 0048 before final command clearance can be authorized. Subscribers must retain final bills until this action is completed. Persons clearing Government or economy quarters are not authorized to physically disconnect or remove their commercial telephones. Telephone instruments are the property of the DBP and subscribers are liable for damage.

5. Telegrams and Radiograms

- a. To send a Telegram from a commercial telephone dial 113 and ask for "English speaking Operator". Telegrams may also be sent from any DBP office. Charges will be applied to your telephone bill.

TELEGRAM CHARGES (per word)

Ordinary telegrams to New York City and CONUS	1.20 DM
Ordinary telegrams to Alaska	1.20 DM
Ordinary telegrams to Hawaii	2.40 DM
Minimum charges of 7 words	
Letter telegrams to New York City and CONUS	0.60 DM
Letter telegrams to Alaska	0.60 DM
Letter telegrams to Hawaii	1.20 DM
Minimum charges of 22 words	

- b. DBP will not accept collect telegrams.

VIII. TELEPHONE SERVICE PRECEDENCE

See tables on page 77 and 78 and USCOB/USAB Reg. 105-1.

IX. MINIMIZE

as directed by AR 105-34.

It's smart to be security wise

TELEPHONE PRECEDENCE SYSTEMS

TABLE I

Precedences for Use Between a US Unit and NATO or Allied National Forces

Designation	Application	Preemption Right
FLASH	Reserved for very important calls, such as: (1) Announcement of an alert (2) Opening of hostilities or impending hostilities (3) Cases of extreme operational urgency when a message must be sent to prevent allied elements from engaging each other (4) Initial reports on sea and air catastrophes, or when an ammunition depot explodes	YES—over all lower precedence calls. DOES NOT PREEMPT another FLASH CALL
LIGHTNING	Reserved for important calls, such as: (1) Calls having an immediate bearing on combat operations (2) Calls dealing with the conduct of salvage operations (3) Calls of a very important nature dealing with logistic support and having an immediate bearing on tactical operations	YES—over lower precedence calls. DOES NOT PREEMPT another LIGHTNING call in process
URGENT	Reserved for calls requiring immediate action (e.g., border, incidents, combat reports) This is the highest priority that can normally be used for administrative messages	NONE—will take priority over ORDINARY calls

Don't tell it to the World

TELEPHONE PRECEDENCE SYSTEMS

TABLE II

Joint Uniform Telephone Communications Precedence System Chart

Designation	Application	Preemption Right
FLASH	FLASH precedence is reserved for alerts, warnings, or other emergency actions having immediate bearing on national command or area security (e.g., Presidential use; announcement of alert; land, air, or sea catastrophes; intelligence reports on matters leading to enemy attack; potential or actual nuclear accident or incident; implementation of services unilateral emergency actions procedures; etc.)	YES—precedence over any other telephonic call of lower precedence. Pre-empt lower precedence calls. May be pre-empted by the application of the FLASH OVERRIDE capability available to (1) President of the United States, Secretary of Defense, and Joint Chiefs of Staff (2) Commanders of Unified and Specified Commands when declaring either Defense Condition One or Defense Emergency (3) Commander in Chief, North American Air Defense Command, when declaring either Defense Condition One or Air Defense Emergency
IMMEDIATE	Immediate precedence is reserved for vital communications (1) having an immediate operational effect on tactical operations (2) which directly concern safety or rescue operations (3) which affect the intelligence community operational role (e.g., initial vital reports of damage due to enemy action; land, sea, or air reports which must be completed from vehicles in motion such as operational mission aircraft; intelligence reports on vital actions in progress, natural disaster or widespread damage; emergency weather reports having an immediate bearing on mission in progress; emergency use for circuit restoration; use by tactical command posts for passing immediate operational traffic, etc.)	Has precedence over any other telephonic calls of lower precedence.
PRIORITY	Priority precedence is reserved for calls which require prompt completion for national defense and security, the successful conduct of war or to safeguard life or property which do not require higher precedence (e.g., reports of priority land, sea, air movement, administrative intelligence, operational, or logistic activity calls requiring priority action, calls that would have a serious impact on military, administrative, intelligence, operational or logistic activities if handled as a ROUTINE CALL). Normally, PRIORITY will be the highest precedence that may be assigned to administrative matters for which speed of handling is of paramount importance	Has precedence over any other telephonic call of lower precedence. Pre-empt lower precedence calls
ROUTINE	Routine precedence is reserved for all other official communications	Has no precedence over any other call and is handled sequentially as placed by the calling party. No pre-empt.

XI. AUTOVON SERVICE & CALLING PROCEDURE

1. General

The AUTOMATIC VOICE Network (AUTOVON) is the global general purpose telephone network of the Defense Communications System. The network is provided for transmission of essential official information only.

Use of AUTOVON constitutes consent to monitoring by the DCS.

2. Incoming Calls

All incoming AUTOVON dial calls (direct dial to Berlin military telephones) are handled without operator assistance. Incoming AUTOVON calls which terminate at the Berlin Military Switchboard are manually handled in the same manner as any other incoming call.

3. Outgoing Calls (direct dial)

All Berlin Class A1 telephone subscribers have direct access to the AUTOVON system by dialing "8", and then the distant-end 7 digit AUTOVON number. These calls are all processed as "Routine". When using AUTOVON dial service, the calling procedure is:

- Plan your call.
- Consult this directory for the AUTOVON number.
- Lift handset and listen for the local dial tone.
- Dial AUTOVON access code ("8") and listen for AUTOVON dial tone (a continuous low-pitch tone). If, on dialing "8", the AUTOVON dial tone is not heard, replace the handset, and attempt the call again.
- Dial the desired 7 digit AUTOVON number. AUTOVON numbers ending in XXX or XXXX indicate that the 3 or 4 digit distant station telephone extension may be dialed direct by substituting the distant end extension number for the Xs. (If the distant end number contains 5 digits, drop the first digit and dial as a 4 digit number). If the distant end number is not known, dial the number for the distant end operator.

- If the number in this directory is incorrect, report this to Directory Service and consult the operator (90) for the assistance.

4. Outgoing Calls (operator assisted)

Class A1 and A2 telephone subscribers may access AUTOVON through the long distance operator. Calls up to "Immediate" precedence to Europe and CONUS may be placed using the guidelines on the opposite page. For operator assisted calls, the procedure is:

- Plan your call.
- Consult this directory for the AUTOVON number.
- Dial 90 for the Berlin long distance operator, and give details for the call:
 - Your name and telephone number.
 - The precedence level of your call.
 - The 7 digit AUTOVON number of the party to be called. If the AUTOVON number is not known, give the called party's name, location, and local telephone number.
 - Remain on the line while the operator completes your call; or if the call must be booked, remain in the area of your telephone until the long distance operator completes your call. If you must leave the area, cancel the call.

5. Precedence

The Telephone Service Precedence System for AUTOVON is the same as indicated on the chart on page 94 of this directory.

6. Troubles

Users of AUTOVON via class A1 telephone should use the following procedure when troubles are encountered:

- Try again.
- If trouble persists, dial 93 and give chief operator your name and class A1 telephone number; the name location, and AUTOVON number of the called party; a brief description of trouble and time occurred.

.....see 14

Antidotes to use

1	11
If victim is conscious, cause vom- iting by giving either: Tablespoon of powdered mus- tard in glass of warm water, or Tablespoon salt in water, or Inserting finger in throat. For vomiting, place victim face down with head lower than hips.	Give 6 tablespoons thick starch paste—made by mixing corn- starch or flour in water. Then give 6 tablespoons salt in quart of warm water. Drink until vomit liquid is no longer blue in color. Then give several glasses of milk, or egg whites in cooking oil or milk.
2	12
Give a mixture consisting of: 2 tablespoons of powdered charcoal or powdered burnt toast, 1 tablespoon milk of magnesia, 4 tablespoons very strong tea.	Give 4 tablespoons olive oil, or castor oil, or cooking oil. Then give glass of milk or beaten whites of 2 eggs in glass of water. Then 1 or 2 cups coffee or tea. AVOID causing vomiting.
3	13
Cause vomiting (#1). Give 2 tablespoons epsom salts in pint (2 glasses) of water. Finally give 2 or 3 cups of hot coffee or strong tea.	Give 2 tablespoons vinegar in pint (2 glasses) of water. Give white of 2 eggs or 6 tbsps. olive or cooking oil. Coffee. AVOID causing vomiting.
4	14
Only within first 5 minutes of strychnine poisoning proceed as follows: Cause vomiting (#1). Give same mixture as #2. Artificial respiration. After first 5 minutes, slightest disturbance may cause convul- sions. Get patient to a hospital.	Insert clothespin or wadded hand- kerchief in mouth to prevent biting or swallowing tongue. Quickly loosen all clothing, es- pecially around neck. Watch to prevent self-harm. If patient has high fever, sponge with lukewarm water or pref- erably rubbing alcohol.
5	15
Cause vomiting (#1). Give same mixture as #2. Give 2 tablespoons epsom salts in pint (2 glasses) of water. Then give several cups of hot coffee or very strong tea. Keep patient walking or moving.	Cause vomiting (#1). Give 1 tablespoon bicarbonate of soda (baking soda) in pint (2 glasses) of water. Vomit. Repeat until alcohol odor disappears. Then 1 teaspoon baking soda in glass of milk. Protect patient's eyes from light.
6	16
Cause vomiting (#1). Keep patient warm. Give steamed dry rice or dry toast. Replace body fluids with water or weak tea. NEVER give cathartics.	Mix either 3 tablespoons milk of magnesia or whites of 12 eggs in several glasses of water—or give several glasses of milk. AVOID causing vomiting. For acids on skin, flush with water for 15 minutes.
7	17
Give same mixture as #2. Give 2 tablespoons epsom salts in pint (2 glasses) of water. Force patient to remain awake.	Give 1 teaspoon of spirits of am- monia (not household ammonia) in glass of water. 2 cups hot coffee or very strong tea mixed with whites of 3 eggs.
8	18
Cause vomiting (#1). Give 1 tablespoon epsom salts in glass of warm water. Then give half cup mineral oil NEVER vegetable or animal oil.	Get victim into fresh air. If unconscious, give artificial respiration. Summon police emergency for oxygen. Several cups hot coffee or very strong tea after patient revives.
9	19
Fresh air immediately. If unconscious, give artificial respiration. Summon police emergency for oxygen. If conscious, cause vomiting (#1). Then give 2 tablespoons epsom salts in glass of water NEVER give alcohol.	Give half cup of olive oil or cook- ing oil. Several cups coffee or strong tea. AVOID causing vomiting.
10	20
Cause vomiting (#1). Give same mixture as #2. Give 2 cups strong tea or coffee.	Cause vomiting (#1). Give 2 tablespoons milk of mag- nesia or 4 egg whites in milk. Then 2 or 3 glasses of plain milk.
	21
	Cause vomiting (#1). Give same mixture as #2. Get patient to a hospital.
